Date	Results
9/01/24_____	Tapeworm
11/21/25_____	negative___

Reason for Visit

Pants has been hiding a lot and acting depressed. About a week ago, he changed his eating and drinking habits and seemed to not be consuming as much. Now he is not drinking or eating at all. He goes into the basement and has never done that in the past. Owners are not sure if he is using the bathroom normally. He is losing weight rapidly and used to weigh 10 lbs. Owners said that he vomited once last night and it was yellowish liquid but no food was present.

Weight_7 pounds_____
Temperature_103.8_____
